

ENTERPRISE MEDIA KIT · 2026

Hexworth Prime

The AI-powered technology education ecosystem where learning,
labs, and careers connect.

Prepared for enterprise partners, publishers & sponsors.

An integrated technology ecosystem, not just another course platform.

Hexworth is an AI-powered technology education platform built for practical learning. Rather than separating education, hands-on practice, and career preparation, Hexworth integrates them into a single connected ecosystem spanning cybersecurity, AI, Linux, networking, cloud, and programming.

01 / LEARN

AI-Assisted Education

Instruction and mentoring powered by AI, grounded in real engineering practice, teach rather than hype.

02 / BUILD

Immersive Labs & CTFs

Interactive laboratories and cybersecurity challenges that turn theory into hands-on capability.

03 / ADVANCE

Career Development

Certification prep, documentation, and career services that connect learning to real outcomes.

3,500+

INTERACTIVE MODULES

12

BROWSER-BASED

MISSION

To empower individuals and organizations to develop practical technology skills through AI-assisted learning, immersive laboratories, cybersecurity challenges, career development, and real-world engineering experiences.

VISION

To become the leading AI-powered technology education ecosystem where learning, building, experimentation, certification, and career growth exist within one connected platform.

CORE VALUES

Learning

Engineering

Curiosity

Integrity

WHO LEARNS ON HEXWORTH

01

**Students & Career
Changers**

Learners building technology skills and pivoting into technical careers.

02

Educators & Universities

Instructors and institutions integrating labs and curriculum.

03

**IT & Security
Professionals**

Practitioners advancing skills in cybersecurity, cloud, and infrastructure.

04

Developers

Engineers deepening programming, DevOps, and AI capability.

05

**Veterans & Workforce
Dev**

Programs reskilling talent for the technology workforce.

06

**Enterprise Learning
Teams**

Organizations upskilling at scale with measurable outcomes.

Built on credibility, not hype

01

Evidence-based & credible

We explain rather than hype and demonstrate through evidence: clarity over buzzwords, no clickbait.

02

One integrated ecosystem

Education, AI-assisted learning, hands-on labs, and careers live in one connected platform, deeper reach for partners.

03

Engaged technical audience

Students, practitioners, and enterprise teams actively building real cybersecurity, cloud, and AI skills.

04

Enterprise-ready for teams

Certification-aligned pathways, curriculum-ready content, and instructor-led cohort management designed for organizations at scale.

Ways to collaborate

- Affiliate partnerships & educational reviews
- Hardware & software product evaluations
- Guest content & technical workshops
- Cloud credits & infrastructure partnerships
- Certification & curriculum partnerships
- Sponsorships, grants & research collaborations
- Campus partnerships & developer advocacy

WHO WE'RE LOOKING TO WORK WITH

Cloud & infrastructure
providers

Security tooling vendors

Certification bodies

Technical publishers

Hardware & device makers

Universities & workforce
programs

We're actively building partnerships across these categories. To explore working together, reach out at frank@hexworth.com.

Logo & identity

Cyan is the canonical brand color. Use the mark on dark backgrounds (cyan or white) and the black mark on light backgrounds. Keep clear space of at least the height of the hexagon around the mark. Full asset pack (PNG sizes + social frames) available at hexworth.com/brand.

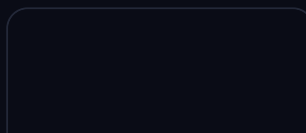

PALETTE

**Cyan**

#22D3EE · Primary

**Violet**

#8B5CF6 · Secondary

**Void**

#0A0C16 · Background

**Ink**
